Leighton Contractors in Alliance to deliver Kingsgrove to Revesby rail quadruplication

Leighton Contractors will team with the Transport Infrastructure Development Corporation, Maunsell Australia, Sinclair Knight Merz, MVM Rail and Union Switch & Signal to deliver the duplication of rail lines between Kingsgrove and Revesby stations with a total value of approximately \$450 million.

The package of works, to be delivered by the alliance team, will involve over a two-year period the construction of two new rail lines between the two stations, 10 new rail bridges, modifications to five existing bridges and a new overhead concourse and lift at Revesby station.

Peter McMorrow, Managing Director of Leighton Contractors, said today that he is delighted that Leighton Contractors is to be involved with the project.

"The announcement that we are to be involved with the Kingsgrove to Revesby Quadruplication Alliance is recognition of the capability, commitment and experience of our team. We look forward to working with our alliance partners to deliver this major infrastructure project", Mr McMorrow said.

Mike Metcalfe, General Manager, Leighton Contractors NSW & ACT, said "I am extremely excited at this opportunity to work with our alliance partners to deliver this significant rail infrastructure project. Leighton Contractors has a proven alliance culture and we are looking forward to working with our alliance partners in order to expand upon this experience with this important State project".

As part of the State's \$1.8 billion Clearways program, this project aims to alleviate the bottleneck created on the rail line between the Kingsgrove and Revesby stations, in Sydney's south-west.

Leighton Contractors is one of Australia's leading construction, mining, services and telecommunications groups with over \$6 billion work in hand, employing more than 5,000 people across Australia and New Zealand.
