THIESS JOHN HOLLAND REACHES FINAL SETTLEMENT ON EASTLINK EARLY COMPLETION BONUS

Melbourne, 4 March 2010: Thiess John Holland (TJH) has today reached final settlement with ConnectEast Group on the calculation and payment of a performance bonus relating to the early completion of EastLink.

The settlement provides recognition of the efforts of TJH in delivering the complex project 177 days early. As part of the settlement, the formula for the bonus calculation will be amended to better reflect revised traffic ramp-up projections.

“EastLink is a world class motorway and we are pleased that a number of issues emerging from this large and complex project are now behind us,” said Glenn Palin, John Holland’s Group Managing Director.
